

ALEXANDRIA.

SATURDAY EVENING. FEBRUARY 16.

THE NEW YORK Herald says: "We only express the general belief of Northern dem ocrats that it was not the tariff question, bat Northern impatience with the 'solid South' which defeated the democrats last November." There is hardly any doubt of the fact that the President's mugwumpism and Northern hate for the South were the chief causes of the democratic defeat last November. And the other fact, that the He ald is plain spoken enough to confess the effectiveness of the latter cause, should be sufficient to put a stop to the gabble about the President's low tariff ideas having been the cause of his defeat. It is well known that his defeat would have been more overwhelming had it not been for his pronounced opposition to the protective tariff.

BY THE present tariff the duty on tin plate is one cent a pound, which produces a revenue of over six and a quarter million dollars. By the Senate's proposed tariff bill the duty on tin plate is one cent and threefourths a pound, which will increase the revenue to over eleven million dollars. That this would be the case is plain from the fact retary Vilas for a list of special pension ex country, no diminution in the quantity of it imported would be effected by the increased ing Mr. Vilas the number of clerks appointed rate of duty. And all this, too, though the ncreased revenue is not wanted, and though ha poor people of the country, who eat the food put up in cans made of tin plate, wou'd be taxed to produce it.

PRESIDENT TAYLOR, in his inaugural ad dress, said: "I shall make honesty, capacity, and fidelity, indispensable prerequisites to the bestowal of office, and the absence of either of these qualities shall be deemed sufficient cause for removal." Now if President Cleveland, instead of making the abili ty to solve problem- by the differential calculus and to tell the distance and the nearest route from Sitka to Timbuctoo, had adopted Old Rough and Ready's policy regarding civil service, 1893 instead of 1889 would have seen him preparing to bid an eternal farewell to the White House.

THE SORT of pretection this country wants is the sort recommended by President Taylor, forty years ago, the sort that tends to secure "the encouragement of the great industries of agriculture, commerce and manufactures;" of agriculture, by allowing the farmers to sell in the dearest and buy in the cheapest market; of commerce, by allowing American merchants to buy ships where they can buy them cheapest, and by repealturers to obtain cheap raw material and chean machinery.

AMONG MR HARRISON'S callers on Thursday were some Southern negro politicians, the most notorious of whom was J. M. Langston, halling from Virginia. It is hard ly worth while to notice what such negroes say on any occasion, as is demonstrated by what they said on the one referred to, which, was that the Southern States were "overwhelmingly republican." Free schools, which are supported by the white people, of the Code of Virginia, to take effect the neither impart to the negroes understanding nor a love of truth.

The House then went into Committee of

The Tariff Bill. Washington, Feb. 16.-The Ways and

Means Committee had a short meeting this morning, but one full of results. The Mc-Millin tariff bill, which was presented to the committee yesterday, was finally con sidered and ordered to be reported to the House. According to the committee's estimates the bill would, if enacted into law, reduce the revenues \$72,000,000. It is close ly patterned after the Mills bill, retaining the free list with a few additions made by the Senate. It omits, however, the chemical, cotton and iron schedules, excepting pig iron, rails, structural iron and tin plate, which are treated as in the Mills bill. The other changes made are in dates and other lunimportant details. When this was dis posed of the committee, with a view to having at hand a bill to meet immediate emargencles in the matter of excessive revenue, authorized a favorable report upon an original bill prepared by Representative Breckinridge, of Kentucky, which proposes to put tin plate and wool on the free list and to reduce the internal revenue as proposed in the Mills bill (which in its revenue sections is identical with the Cowles bill) The bill also includes the woolen and worsted clotb sections of the Mills bill. This measure, it is estimated, would reduce the revenues about \$40,000 000. It is generally believed that this measure will be the main recourse of the Ways and Means democrats in the approaching conflict with the Appropradons Committee. These bills were reported in the House to-day and there will be no further opposition to the presentation of the report on the tobacco bill from the Appropriations Committee.

A call for a democratic caucus to be held Monday night is being circulated in the The object of the caucus is the consideration of the course to be pursued by the democrats in reference to the tariff bill and the internal revenue bill, reported by the Committee on Appropriations.

o the editor of the Dispatch; There has been so much misunderstanding garding the recent actions of the courts touching the public debt that I ask space to state just who

judgment against me left me where I was ceed with my appeals and undo what th Court had done.

the coupons came. As none of them could do the it was a foregone conclusion that she would rever judgment against them with heavy pentics and costs. If coupons were tendered to pa ment of this judgment, there was to be an judgment on this judgment, with additional alties and costs, and so on until the tax-payer Building, in the said city of Alexandria, at twelve o'clock noon on SATUEDAY, March 9th, 1889, the following property, to wit:

1. A LOT OF GROUND and IMPROVEMENTS the source of the success of the success of the source of the success of the success of the source of the success of the source of the success of the her courts, which it was supposed would be done by his being unable to get his case heard in the Supreme Court for four years. I succeeded in getintersection with King street, and running thence north on West street 58 feet 6 inches (more or less) to an alley 10 feet wide; thence east on said alley 22 feet 11 inches; thence south and parallel to West street 58 feet 6 inches; thence by a stright line 22 feet 11 inches to the point of beginning, with the use of said alley in common with others entitled thereto.

2. One DIAMOND RING. of the way in which the State's authorities were oppressing her citizens. I ventured to move the Court to modify its rules and have these cases heard at once. The State by her Arterne General appeared and resisted the motion, but the Court ordered them to be heard within one week.

of the first day that they could possibly, under its rules, be heard.

The not result is that the State is now standing on her last log, and if I win these cases in October

on her last leg, and if I win these esses in Octobel
I will break that leg.
So far as the Court's refusal to issue its rest
tion is concerned it is of no sort of consequence
It was only a question of \$35, which will be
rain no.
